

Team Spear-It

We will do a lot of activities this year that involve teamwork. But successful group work doesn't just happen on it's own. There are **6** rules to keep in mind for any team to be successful:

G
R
O
U
P
S

Directions:

1. Each group needs the following supplies:
six sharp pencils, one ziplock baggie, water.
2. Fill bags half-full with water.
3. Seal bags.
4. Each pencil represents one rule of a successful group. Say the rule out loud as you push the pencil through the bag.
5. After all six pencils are in bag, show your teacher the final product and then go to sink to remove one pencil one at a time.

Discussion:

1. Why do you think every rule is important to having a good group experience?
2. Why do you think the water did not spill out of the bag when you poked it with a pencil?
