

We Empower Educators to Become the Catalysts that Engage and Unleash Student Creators

About Inventionland Education:

Inventionland Education believes that every student should be equipped with the skills they need to succeed in the classroom and beyond. With inspiring spaces, our Innovation Labs® set the standard for creative and immersive learning spaces.

The Inventionland Education Invention Curriculum teaches students problem-solving, creativity and real-world entrepreneurship.

Innovation Labs®

Our award-winning Innovation Labs® create environments for creative learning and problem solving, whether it's remodeling existing space or building something completely new.

With a full line of Innovation Labs®, districts can choose from various design elements to turn spaces into immersive educational environments. From treehouses to pirate ships, we help you reinvent your space to foster creativity and teamwork, working within your needs and budget.

K-12 Invention Curriculum

Our Invention Curriculum uses the proven 9-step method used by Inventionland to help companies bring new products to market.

Students work in groups to develop a product (or innovate one), ultimately leading to a product presentation (or pitch) to a panel of judges.

Students learn and apply key STEM/STEAM principles, and develop life-long career skills along the way, using our proven 9-step process shown below:

- | | |
|---|---|
|  1. Create and Protect |  6. Draft and Engineer |
|  2. Research Their Idea |  7. Package their Product |
|  3. Brainstorm Solutions |  8. Communicate Key Points |
|  4. Sketch Their Idea |  9. Pitch Ideas to a Judging Panel |
|  5. Create a Concept Model | |
