STICKY NOTE CHALLENGE Estimated Time: 20 minutes You've been sticking us all day. Balzer built a giant magnet to steal all the inventions in Inventionland. Jesse invented a plastic device he calls the Sticky Stunner, which he's using for pranks...

Help Jesse save the day!

In groups of 2 or 3, use engineering techniques to construct the tallest freestanding tower possible using **ONLY** sticky notes.

Inventing (2 mins):

There are many different ways to make a tower. Think of ways to reshape the notes to create a functional design.

Making (10 mins):

Construct a tall freestanding tower using sticky notes.

Storytelling (4 mins):

Reflect on this activity, what did you think of the challenge? Was it hard to work with only one material? If you could have used a different technique, what would it be and why?
